PROJECTS

STOPWATCH

I created a simple stopwatch project using JavaScript, HTML, and CSS. The project was created using HTML for the structure of the webpage, CSS for the styling, and JavaScript for the functionality of the stopwatch.

CHATBOT

a chatbot is a computer program that simulates and processes human conversation (either written or spoken), allowing humans to interact with digital devices as if they were communicating with a real person.

TODO LIST

Introducing my simple and intuitive TODO list, designed to help you organize and manage your tasks with ease.

DRUM KIT

Beats is an interactive drum kit built using HTML, CSS, and JavaScript. This engaging project brings the joy of playing drums right to your fingertips, allowing users to unleash their inner rhythm and create captivating beats.
